Subject: RE: Questions about coding assignment for Oregon CZARA public comments

Also just noticed TWO different comment sets labeled #73...

- 1) 73 A-F, Freshwater Trust, Rows 195-200
- 2) 73 A-C, Tillamook Bay Watershed Council, Rows 361-363

I will review both of them, but not sure how to adjust the numbers...

...any renumbering suggestions?

Thanks Don. Good catches. Yes, there are only 85 comments. I slipped up and ended up reading the excel line # (which was 2 different than the actual comment #) for some of the later comments...thus the screwy #s. Since Jenny already did hers, Chris, if you could pick up 78, 79 and 85, that would be great. Then I think we'll have everything covered. Understand that you may need a little more time. Would wrapping things up by Tues of next week work? I'll consolidate all the coded comments I have and send out to the full group this afternoon and can add your's to the bunch next week.

Allison,

Chris Solloway just returned to the office yesterday after being out since 4/11, so I'm pretty sure he'll need more time (...unless perhaps he has only Comment #85 assigned to him). I just noticed in your coding instructions that he is on the hook for Comments 84-87, yet I only see 85 comments on your spreadsheet and in the docket online (<http://coastalmanagement.noaa.gov/nonpoint/oregonDocket/publicComments.html>). Further, Comment #84 was assigned to both Jenny and Chris. How do you want to resolve this? Also, it looks like no one is assigned Comment #s 78 & 79. Again, let me know how you want to resolve this.

Finally, although I am making progress with this assignment, I am not likely to complete it by COB today.

Subject: Coding Instructions and Assignments for OR public comments

All--

See attached for updated instructions for how to code OR's public comments. I've assigned most to Jayne, Don and me with Jenny and Chris (since they are on spring break this week, helping out with a few additional comments at the end. Since we'll be relying on Alan as the main tech reviewer for forestry and ag (the BIG ONES), I've given him a pass on coding so he can focus more on reviewing key documents.

I think it would be great if we could shoot for getting all the coding done by **next Friday, April 25th**. I already did most of my batch as an example and it only took me about a day. I know there are some meatier comments towards the end that may take a little more time to sort out but I think targeting next Friday would still be good.

Let me know if you have questions.

Happy coding!
Allison
